

ORDINANCE NO. 20-05

AN ORDINANCE PROHIBITING THE USE AND SALE OF SINGLE-USE PLASTIC CARRYOUT BAGS, PLASTIC STRAWS OR STIRRERS, OR STYROFOAM CUPS, PLATES AND FOOD BOXES IN THE TOWN OF TAOS; ENCOURAGING USE OF REUSABLE BAGS AS AN ALTERNATIVE TO SINGLE-USE PLASTIC BAGS; PROVIDING FOR EXEMPTIONS; ESTABLISHING PENALTIES FOR VIOLATION.

BE IT ORDAINED BY THE GOVERNING BODY OF THE TOWN OF TAOS, AS FOLLOWS:

Section One. Legislative findings. The Governing Body of the Town of Taos finds that:

- A. **Whereas**, the majority of single-use plastic carryout bags used for shopping, plastic straws and stirrers used in to-go drinks, and Styrofoam food boxes, cups and plates sold in stores or used for fast food and take-out food are increasingly creating a roadside trash issue for our community, including the clogging of storm drains;
- B. **Whereas**, this has an adverse aesthetic impact on the community, causes maintenance issues and expense to the Town and taxpayers and may have a negative impact on tourism; and
- C. **Whereas**, these disposable products do not easily degrade, but rather persist in the environment for years, slowly breaking down through abrasion, tearing, and photo-degradation into plastic bits, called micro-plastics, that science is increasingly proving then can enter the food chain for humans, wildlife and livestock and may contribute to adverse health conditions in all species;
- D. **Whereas**, plastic bags, straws and stirrers, Styrofoam plates, cups and food boxes litter our fields, our acequias, our rivers, our roadsides;
- E. **Whereas**, the health effects of micro-plastics on humans and animals are only beginning to be understood;

- F. **Whereas**, these disposable convenience items have existing, readily available and economically comparable alternatives, such as reusable bags, wooden stirrers, recycled and waxed paper straws, plates and cups;
- G. **Whereas**, it is the Town's desire to protect the environment by reducing waste, litter, and pollution, and to eliminate the negative economic impact of trash, as well as to protect the health and safety of our citizens, wildlife and pets; and
- H. **Whereas**, the Town wishes to educate and encourage the public to be more environmentally conscious, to change habits in order to reduce the public cost and demand for solid waste and recycling services, to encourage the public to use reusable bags or bags made out of recyclable materials, and to require the public and our businesses to use plates, cups, straws and stirrers made of recycled or environmentally friendly material.

- A. This Ordinance shall be cited as the "Single-Use Product Ordinance."

The production and disposal of single-use convenience products, such as plastic carryout bags, plastic straws and stirrers, Styrofoam food boxes, cups and plates, causes significant environmental impact, including contamination of the environment, the death of animals through ingestion and entanglement, and widespread litter affecting the land and oceans. The purpose of this Ordinance is to protect, conserve and enhance the Town's unique natural beauty and irreplaceable natural resources, to minimize the impact and cost of litter and solid waste disposal from single-use products to the public, and to preserve the public health and safety through the prohibition of single-use carryout bags, encouraging the use of reusable bags, and prohibiting use of single use products such as plastic straws and stirrers, Styrofoam food boxes, cups and plates.
